

Treasure Hike 21 – Rogen

Difficulty rank: MODERATE

Length: 10 km

Area: Härjedalen

A 10 km easy walked hiking tour in a varying landscape with lakes and forest. The tour is over dry ground and over the wet stretches we provide footbridges. The terrain can be a bit rocky, therefore we recommend light hiking boots.

The tour starts at Käringsjön, where you park your car (the last part of the road is a private owned toll road with a fee). Take the road south towards Särna in Tännäs. When you have passed Tännäs fishing centre and the Mysklan River, turn right. Drive the road towards Käringsjövollen, 18 km. After another 2 km when you reach the bar, where you pay the fee, the small road starts towards Käringsjön for another 7 km.

Description over the tour:

Follow the summer tour towards the Rogen cottage, 5 km easy walked terrain. It's marked with orange paint and a easy-spotted summer path.

The tour leads through the typical barren and rocky nature around Rogen, with smaller lakes. The ground is called "Moraine from dead ice", created when the ice sheet let go off the great amounts of dirt and rocks that was stored inside the ice. So be careful where you put your feet. The sparse forest, with its barren beauty and big areas of dry land with "wolf moss", gives the area character. The "wolf moss" requires special conditions to manage to survive, and it's also very poisonous. It's said that it used to be used as wolf poison, and there of comes the name. The barren environment makes it hard for the flora to live there, but you may find some parts with a lot of *Dactylorhiza maculate*.

The Siberian tit is a bird that stays over the winters and can be found all over the area. It's a bird that can't be spotted anywhere else! The Bluethroat live in these areas too, as well as the Osprey who likes to live where there's a lot of water.

It's possible to stay overnight in the Rogen-cottage, runned by the STF. There you can also do some grocery shopping.

Continue towards the headland and Røgsbodarna, where there's a beautiful view. Then follow the summer tour back to Käringsjön.

This tour is suitable for children families.

Alternate route

Treasure Hike 21b – Rogen – Rödviken – Rogenstugan

Difficulty rank: MODERATE

Length: 15 km

Area: Härjedalen

A 15 km easy walked tour through the labyrinth of lakes to Rogen. The first km is a bit rocky, and then it's followed by easy walked terrain. We recommend easy walked hiking shoes.

Take the summer tour towards Rogen/Rödviken that's marked with orange paint. The first km is rocky and corresponds to the prejudices of the moraine ground of Rogen. It's followed by long distances of easy walked and beautiful tracks. After another 5 km you'll reach the summer tour between the Rogen-cottage and Skedbro Mountain. Take left towards Rogsbodarna. You'll have Lake Roger on the right side, spotted through the pine tree forest. After another 5 km you reach the summer tour between the Rogen-cottage and Käringsjön. Walk to the right to the Rogen-cottage and Rogsbodarna. The water temperature in Rogen is not often high, but right by the side you will find a perfect swimming lagoon with white sand beaches.
